ROKU is one of the strongest growing devices / platforms to date. It is a system the we can operate / upload and modify at our own accord. We do not need to rely on other platforms such as NETFLIX or APPLE STORE to upload our programs or control our advertising. It is 100% under our control. EVENTS

EVENTS ATTENDED and PRODUCED

Throughout the year we attend many shows, races and events. We produce videos from long format, short format and take hundreds of photos. Having you logo on videos and photos can help spread your presents, especially the way social media get shared these days. Best of all if your every short of content or need something new for your followers...we'll always have something for you.

We have helped, marketed and produced many motorsports events over the years.

The following shows are what we have produced and are currently producing and own media rights for.

auto collection **SERIES**

AUTO COLLECTION SERIES

This mini documentary series features a look at local car shows, interviews with the builders / owners. A feel good car show unlike other car shows with hyped up story lines, unmettable deadlines and without 300 shots of welding and grinding. This is as real as it gets, no annoying show hosts or crazy workers.

Currently the show focuses on Idaho and a few out of town shows.

Runtime 10 - 15 minutes

REAL AMERICAN RACING

Ever wonder how the multi billion dollar racing industry stays alive. We take you behind the scenes of the countries weekend racing warriors. If you think just Rock Stars and Artists eat Ramen noodles, think again. We interview racers from all classes and talk about living expenses, race car parts, kids and everything in-between.

Runtime 25 minutes

RAW CUTS - RACING

A variety of un-edited and un-written racing. Straight off the camera. Nothing fancy just RAW.

Runtime. Assorted.
